SEPTEMBER BOOK OF THE MONTH: CHRIST IN HIS FULLNESS BRUCE SULLIVAN
<http://www.chresources.com/products.php?cat=8>

BOOK OF THE MONTH: CHRIST IN HIS FULLNESS - A Protestant Minister Discovers The Fullness of Christ in the Catholic Church. AUTHOR: Bruce Sullivan
PUBLISHER: CHResources, 2007

Bruce Sullivan brilliantly accomplishes two goals in Christ in His Fullness. First, he walks us through the tumult and the trials that accompany the growing migration of Protestants coming home to the Catholic Church. The joys, struggles, fears, and peace that come from the individual's realization of the Truth behind Christ's one and only Body on earth shine through Bruce's own conversion story. He then lays out a concise and informative study on the issues at bay many from ever considering the fullness of Christ in His Church. In a manner that combines passionate insight with a whimsical style, Christ in His Fullness will inspire Catholics who desire a rekindled faith, as well as provide solid evidence for all sincere Christians who wish to walk in the very fullness of Truth found in the Catholic Church.

ADOREMUS BULLETIN- VOL. XIII NO.5 - July-August 2007 Posture "During the "Our Father"

I have a question regarding when we say "The Our Father" at Mass. I notice some people raise their hands like the priest does or else they hold hands with others.

It is only a few who do this. I never did either. I put my hands together as I was taught in school some 57 years ago.

Is the practice of raising one's hands up or holding others' hands correct?

This is one of the most frequently asked of all the questions we receive.

The timeless practice of folding the hands during prayer is a nearly universal tradition of Christians at prayer - and was suggested by Father Romano Guardini in The Spirit of the Liturgy among others.

No posture of the hands during the Lord's Prayer is specified in any of the liturgical books. You will not find any mention of it in the GIRM (General Instruction of the Roman

Missal).

No permission has ever been given by the Holy See for the practice of holding hands during the "Our Father", or for members of the congregation to assume so-called "orans" posture (the position of the priest while praying, with arms outstretched and hands raised).

Although some liturgists had proposed that the bishops specify new gestures for the people during the "Lord's Prayer", most bishops objected, and they voted to reject mentioning the "orans" posture for the people even as an option.

Both hand-holding and "orans" for the people confuses the symbolism proper to the people of God at prayer.

Hand-holding for prayers originated in prayers at Alcoholics Anonymous meetings, and was promoted for the Catholic Liturgy by the late Father Robert Hovda, an influential liturgist in the 1960s and 70s. Some charismatic groups adopted this practice.

The primary symbolism of holding hands is that of expressing the solidarity or communion of the hand-holders with one another. But this is the reason for the symbolic gesture of shaking hands when exchanging the "sign of peace". Using this gesture during a prayer to God "Our Father" conveys the wrong message.

The "orans" posture for the laity was vigorously promoted by some liturgists, in part as an alternative to hand-holding. Their idea was that if members of the congregation use this distinctively priestly gesture the effect is to level the distinction between the priesthood and the laity, which they regarded as representing an outmoded "patriarchal" and "hierarchical" view of the Church. In their view, the Second Vatican Council intended an egalitarian model of the Church; and the "orans" posture for the people was one means of expressing this radical change.

However, most people who adopt these postures at Mass are probably unaware of the symbolism involved or the message they are sending.

(For more background on this, see AB November 2003, "About that 'orans' posture".)
